

Dear Hiring Manager,

I am thrilled to apply for an entry-level position in **Software Engineering** or **Project Management** within your organization. With **1.5 years of experience** in data annotation and a strong foundation in software engineering, I bring a blend of technical expertise and a proactive approach to project coordination.

During my tenure at **Motive**, I enhanced **AI/ML model accuracy by 80%**, streamlined workflows to improve operational efficiency by **15%**, and collaborated with multidisciplinary teams to deliver high-quality datasets. My internships at **CodeClause** and **Tata Group** further refined my skills in **data cleaning, visualization, and ML model implementation**, achieving significant improvements in data accuracy and stakeholder communication.

With certifications in **IBM Data Analysis** and **Project Management**, I am well-versed in tools like **Python, Jira, and GitHub**, and I am eager to contribute my skills to drive innovation and efficiency in your organization.

Thank you for considering my application. I am excited about the opportunity to bring value to your team and look forward to discussing how my skills align with your needs.

Best regards,

Maryum Ibrar
